- Lightning fast lead collection ✓ **Yes**
- Portability ✓ **Yes**
- Battery operated ✓ **Yes**
- Built in lead qualifiers ✓ **Yes**
- Complimentary USB stick containing your leads ✓ **Yes**
- 100% money back guarantee ✓ **Yes**

THEN YOU NEED DIRECTLEAD™ MOBILE

- Compact, portable magstripe reader allows simple card swiping
- Graphic LCD display to verify scanned data
- Thumbwheel user interface to enter additional data
- Built-in rechargeable lithium battery
- Up to 8,000 leads can be stored on removable memory card
- All swipes are date & time stamped
- Leads are provided on USB memory sticks at the close of the show at no additional charge.

Optional Accessory:

Bluetooth Thermal Printer

The Bluetooth Thermal Printer is perfect for printing on the go, or in situations where an electrical outlet is not available. With its direct interface to SST's portable readers, it is ideal for generating paper receipts of marketing leads at trade shows. It is exceptionally fast and quiet, using thermal printing technology. The internal battery can be recharged quickly, and provides up to 40,000 lines of printing on a single charge. Supports multiple units.
